

Student Clubs

The establishment of student club is aimed to encourage active involvement of students with co-curricular activities at the department and faculty level. This is in line with the direction of educational development and talent achievement as outlined in the Malaysia Higher Education Development Plan.

There is one student club in the Faculty, namely FICTS, where all students from the Faculty are welcome to join the Club. Other than that, there are five student clubs represent each department in the Faculty, and students from each programme are welcome to join the respective club based on their programme.

Network and Security Association (NETSA)

FTMK Student Club (FICTS)

Diplomate

Software and Database Club

Interactive Media Club (IMC)

Artificial Intelligence Club (AIC)
